

## **DVRs for the real world**

Digimerge has launched an enhanced family of DVRs that are designed for the "real world".

Our customers demanded a DVR that works day in and day out. We responded 12 months ago by completing the development of a rock solid DVR platform. This is the basis for our new family of DVRs. We needed a HDD that met the same reliability standard. Enter Seagate SV35.3 Series<sup>™</sup>. 20,000 units later our new DVR and HDD platform had less than a 1% defective rate.

Seagate HDDs are a key element of the new Digimerge Fortress-Vision™ 5/3/1 warranty.

- **5** year warranty on the HDD
- **3** year return to depot DVR repair warranty
- 1 year over the counter exchange at distribution

SV35.3 Series<sup>™</sup> HDDs available in a range of sizes, including: 160GB, 250GB, 320GB, 500GB, 750GB and 1TB

SV35.3 Series<sup>™</sup> HDDs are specifically designed to meet the demands of the surveillance industry.

## You talked, we listened.
